

APRIL 2022 NEWSLETTER

Ramps, landings, platforms and walkway safety is paramount for every pedestrian access. Advance Anti-Slip has nonslip surfaces to suit every situation.

Welcome to the April issue of the Advance Anti-Slip Surfaces newsletter. As the East Coast of Australia slowly moves forward from many weeks of extreme wet weather and the floods that ensued have put human resolve to yet another test of resilience, it was gratifying to see the Australian spirit rise as we lent a hand to our fellow Aussies who were left devastated. Well done, Australia.

Take care and stay safe over the upcoming Easter and ANZAC long weekends.
